**Subject:** draft proposed plan for VB-I70 OU2

Attached is what I would consider a first draft for internal review of the proposed plan for VB-I-70 OU2 (Publisher file). Sam and I are still working on some more conclusive statements regarding groundwater and the landfill, but in an effort to keep moving forward we'd like to get internal comments.

I will develop and send a draft timeline for the proposed plan next week but we'd like to get comments if possible by **December 3rd**. I think the overall goal is to finalize and distribute the proposed plan by mid-to-late January, with the public comment period and meeting being in February. I look forward to your comments.  
Jennifer

P.S. You can provide edits by providing handwritten notes on the Publisher document, or you can use Track Changes to edit the text only portion found in the Word document. If you wish to edit portions of the document not in the Word file (i.e. text boxes / graphics), you will need to provide these separately.  
Jennifer
